

CERAMATERIALS

"Your One Stop Shop for Thermal Processing"

CFC Shelves & Rack Designs

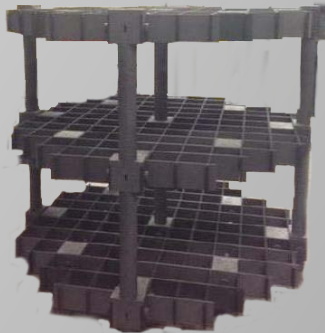

Modular Grid Design

Features chopped fiber CFC.
Allowing grid patterns & hole shapes to any design without compromising shelf strength significantly.
Standard 24"x36" grids in stock.
Reinforced ribs & guides easily added.

Bakers Rack

Allows shelving to be removed & reloaded while the frame stays in the furnace.
The shelves can be solid or grids
Rack supports can be CFC, machined graphite or Moly.
Can be quickly disassembled

Egg Crate Type Design

Assembled from separate sheets dovetailed together.
Designed for maximum strength & support, while being light weight and open structure of temperature uniformity.
Repairable & easily maintained
